Building Sewer Construction Inspection Record

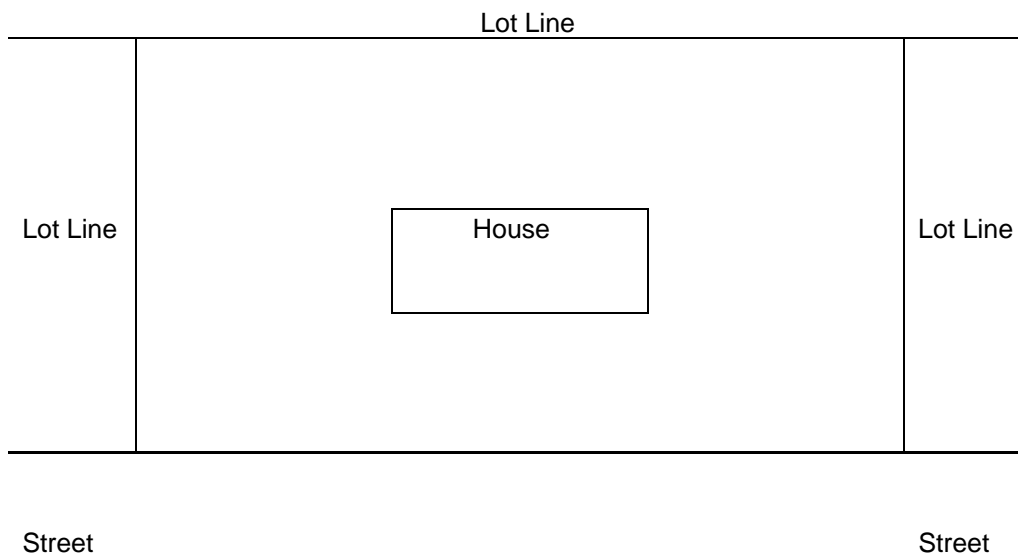

Building Permit No: _____ Sewer Tap Permit # _____

Street Address: _____

Lot #: _____ Subdivision: _____

Registered Sewer Tapper #: _____ Name: _____

Inspected By: _____ Date of Work: _____

Contractor shall complete this form prior to Inspection. DO NOT BACKFILL SEWER PIPE UNTIL INSPECTOR APPROVES WORK.

Notes:

- Show any nearby or parallel lines to the sewer lateral, including sewer laterals to other lots or buildings.
- Line locations must be measured from permanent references that will likely exist in 100 years.
- Where the lateral is run to a sewer main and a new “Y” is installed, show measurements from the nearest manhole on the sewer main to the “Y” location. Show a distance from the face of the curb or pavement edge to the sewer main or note what the lateral line is tying into.
- List the size and type of pipe material that is used.
- Measure along length of pipe between fittings, list length, size and type of fitting.
- Measure in any utility crossings or other feature that an excavator should know about.
- Show the building configuration on the lot and indicate NORTH by an arrow.
- Show all streets and alleys, their locations and names
- When in doubt as to whether some information may or may not be needed, include the information.
