RE: Flats on Memorial Change of Zoning Request

Dear Teresa:

As the Clerk of City Council, this letter is being provided to you to note that, on Thursday, February 13, 2020, the City Planning Commission voted 7-0 in favor of recommending to the City Council that the change of zoning request application submitted for the Flats on Memorial property be approved as submitted, contingent upon the developer executing the City's standard Affidavit of Understanding agreement for the two signs proposed to be located within the public right-of-way.

With this letter we are attaching the report that our office prepared for the Planning Commission meeting; among other things, this report includes both the zoning change request application and Development Plan that was submitted by the petitioner. In addition, we are attaching a 13-page document of concerns from nearby residents that was left with Planning Commission by a Michael McGushin of 1789 Nelson Road on behalf of various residents who were unable to attend the Planning Commission meeting. Minutes from the meeting will also be forwarded once they have been completed.

Please keep in mind that the petitioner has requested a Planned Unit Development (PUD) zoning district overlay as part of this request, so the request is to be administered in accordance with LCO Chapter 1147.08.

Thank you,

Steven Wellstead, P.E.

CHANGE OF ZONING REQUEST
Flats on Memorial
City Planning Commission Meeting
February 13, 2020

CASE No.: 2020.003

REQUEST: Change of zoning from Residential Single Family (RS-3) and Commercial General (CG) to Residential Multi-Family (RM-2) with a Planned Unit Development (PUD) overlay

PETITIONER: Flats on Memorial, LLC
3895 Stoneridge Lane
Dublin, Ohio 43017

PETITIONER’S AGENT: Kontogiannis & Associates
Randall A. Woodings
400 S. Fifth Street, Suite 400
Columbus, Ohio 43215
614-224-2083

PREVIOUS ACTION: Various right-of-way vacations, a re-plat, and a change of zoning dating back to 1955. Most recent action was an approved right-of-way vacation in December 2019.

SITE LOCATION: 18.939 acre tract located to the east of the Big Sandy Superstore between N. Memorial Drive and N. Columbus Street/Nelson Road (see Exhibit #3)

PROJECT & SITE DESCRIPTION:

The petitioners have requested this zoning change in order to construct a multi-family apartment complex on the property. Since the petitioner is requesting a PUD overlay as part of the zoning change request, they are required to submit a Development Plan with their application. The petitioner’s zoning change application and Development Plan have been attached as Exhibits #1 and #2, respectively.

Requirements for properties with a PUD zoning overlay are specified in Chapter 1147 of the Lancaster Codified Ordinances (LCO). LCO 1147.08(b) requires ten specific items that must be included within the Development Plan, and the Development Plan submitted by the developer includes all ten of these items.
The proposed facility is a permitted use under the requested zoning. The proposed development meets all bulk and area requirements for the requested zoning.

Surrounding land use is a mix of both commercial and residential. The property is bordered by commercial establishments to the south and west and bordered by residential homes to the north and east.

Surrounding zoning is similar to the surrounding land use. The adjacent properties to the south and west are zoned Commercial General (CG) whole the properties to the north and east are zoned Residential Single Family (RS-3). A map showing the existing zoning districts surrounding this property has been attached as Exhibit #4.

The site will be accessed from Memorial Drive via two different locations. The western entrance will be through a shared private driveway at the existing traffic light next to the Sherwin Williams building. The eastern entrance will be a public roadway to be constructed through the unimproved Lowell Drive right-of-way between the Ohio Health building and Coconi's Furniture and Mattress store. This new public roadway will be a right-in, right-out access.

Two sanitary sewers run along the northern perimeter of the property and are available to service the site. Water is currently available along Memorial Drive and will have to be extended to the property to service the site. The developer has noted that the complex will not be served by natural gas, so no gas main extensions will be necessary.

Most of the site drains north and east into Hocking River Lateral A, which generally runs along the northern perimeter of the site. The site contains special flood hazard areas as delineated on FEMA map 39045C0251G dated January 6, 2012, although most of the site is outside of the special flood hazard area. When developed, the site will need to include a storm sewer system and stormwater detention that complies with the City's requirements.

This site is outside the Wellhead Protection Area and outside the Historic Preservation District.

Soils on the site consist primarily of Aetna silt loam (Ag), Amanda silt loam (AmB and AmC2), and Urban land-Udorthents complex (Uy). These soils have moderate limitations for buildings, parking lots, and roadways due to limited bearing capacity, shrinking/swelling, and seasonal high water table.
ISSUES FOR PLANNING COMMISSION CONSIDERATION:

1. In accordance with LCO 1147.08(d), Planning Commission needs to determine:
   - Whether the PUD is consistent with the Future Land Use Plan
   - Whether the PUD harmonizes with the existing and expected development of surrounding areas
   - Whether the PUD is a unified treatment of the development possibilities of the project site
   - Whether the PUD is consistent with the stated purposes and standards of Chapter 1147

2. The Land Use Plan recommends this area for part residential and part commercial use.

3. Per 1147.05(d), PUD properties are permitted to prescribe their own maximum building height limits. The Development Plan identifies the maximum building height at 38 feet. For reference, the standard zoning code, if it applied, would limit the maximum building height on this property to 35 feet.

4. Per LCO 1147.04(b)(2), signs for PUD properties must comply with the provisions of Chapter 1317. The Development Plan has proposed the construction of two off-premises signs, but Chapter 1317 does not allow the construction of off-premises signs.

5. This development will create residential units and must comply with the public sites and open spaces requirements of LCO 1109.12. The developer has already been in contact with the Parks Board to discuss possibilities for meeting these requirements.

6. The Planning Commission may recommend that the application be approved as submitted, approved as amended, approved subject to modification, or denied. No matter what Planning Commission recommends, the application will be forwarded to City Council.
RECOMMENDATION:

The staff has no recommendation. If Planning Commission recommends any form of approval of the Development Plan with any signage within the public-right-of-way, then staff recommends that the recommendation for approval be given contingent upon the developer signing a standard Affidavit of Understanding for locating signs within the public right-of-way.
